

PROFILE

Deeply involved in our family manufacturing business in Kolkata, where we produce durable plastic sheets and pipes essential for agriculture, as well as eco-friendly paper cups. Dealing directly with end consumers to capture their feedback and fuel product development.

Learning to diversify risks in our volatile supply chain—particularly with fluctuating plastic granules and paper prices—through smarter sourcing, new product lines, and market expansion. Passionate about sustainable practices and customer-driven innovation, I'm committed to evolving our business for long-term resilience and growth.

PROFESSIONAL EXPERIENCE

LSI FINANCIAL SERVICES PVT LTD

July'21– October'21 | Kolkata, India

Specialized in helping companies secure loans by meticulously **studying their financials** and **connecting them to the most suitable banks**. My approach involved deep dives into balance sheets, cash flows, and growth projections to identify the best banking partners—ensuring faster approvals, competitive rates, and tailored financing solutions. This hands-on expertise bridged gaps between businesses and lenders, enabling clients to fuel expansions, operations, and recoveries with confidence.
