May '26

WORK EXPERIENCE

Advanced Power, Boston
Capital Markets Intern

May '25 – July '25

- Analyzed BESS and PV cost trends across previous energy projects using internal financial models, presenting findings that improved the accuracy of future transaction assumptions by 20%.
- Completed the Pivotal180 Financial Modeling course and applied key concepts to review and clean up a legacy model, fixing 20+ existing checks and building reusable audit tools that reduced review time by 25%.
- Benchmarked project assumptions (e.g., CapEx, O&M) using real market data via internal platforms, enhancing evaluation accuracy and contributing to a faster turnaround on investment.
- Researched and developed a memo on financing mechanisms for Data Center-CCGT hybrid projects (e.g., Energy-as-a-Service, Green Bonds), enabling evaluation of three new financing pathways for future modeling.

Remedy Product Studio, New York
Marketing Intern

May '24 – July '24

- Optimized investor CRM data management, enhancing accuracy and outreach effectiveness by designing a tagging system that categorized over 5,000 entries, leading to an improvement in campaign response rates.
- Published 20 SEO-driven blog articles and social media posts, achieving a 45% increase in user engagement; developed in-depth market reports using Tableau to drive a 20% improvement in campaign ROI; optimized Salesforce workflows through integrations with Excel macros, enhancing operational efficiency
- Organized a New York Tech Week event, coordinating with 30+ industry leaders and sponsors, securing top-tier speakers, and managing logistics, resulting in an increase in partner inquiries post-event.

PWC, Kolkata, India
Management Consulting Intern

July '23 – August '23

- Spearheaded an in-depth research initiative on Battery Energy Storage Systems (BESS) using tools like Stata and Excel to analyze market trends, assess technological advancements, and evaluate integration challenges, delivering actionable insights to enhance strategic decision-making.
- Delivered a comprehensive presentation to the solar department using PowerPoint and Tableau, summarizing actionable recommendations that led to a 15% reduction in operational costs and a 10% improvement in energy storage efficiency, and providing strategic solutions tailored to client needs.
- Created an automated data consolidation tool using Excel macros, simplifying the aggregation of financial data.

CAMPUS INVOLVEMENT

Tufts Rangeela, Tufts University
Founder & President

August '24 – Present

- Founded Tufts' first Bollywood-Fusion dance collective, choreographing original routines, leading performances at campus showcases, and organizing community events to promote inclusivity.

Tufts Women's Network, Tufts University
VP of Finance

August '22 – Present

- Streamlined and executed the annual budget to effectively allocate resources for 15+ events and programs enhancing operational efficiency; delivered detailed monthly, quarterly, and annual financial reports, driving informed decision-making and ensuring long-term financial sustainability.

Tufts Investment Club, Tufts University
Research Analyst

August '22 – Present

- Performed detailed financial analysis across sectors such as the gaming industry and Generative AI, utilizing tools like Power BI, PitchBook, and DCF modeling to project key metrics, assess growth potential, and evaluate strategic investment opportunities.
- Researched market trends and sector developments, delivering quarterly insights to the Tufts Endowment team that informed and aligned investment strategies with evolving market dynamics.
