PROFILE

Interior Designer with around 2 years of experience in diverse design projects for both private and commercial clients, specializing in residential, hospitality, and commercial interiors. Designs with a balance of functionality, aesthetics, and brand identity. Committed to continuous learning, holding a Master's degree in Interior Design while actively expanding knowledge in sustainable and experiential design practices.

PROFESSIONAL EXPERIENCE

Design & Brand Development
Trubekka | Kolkata, India | 08.2025 - Present

- Contributing to the design and development of a furniture brand, from product ideation through design development and styling.
- Developing product concepts with consideration for form, functionality, materials, finishes and manufacturability.
- Supporting brand identity, visual direction and styling across product and marketing touchpoints.
- Collaborating with production and workshop teams to translate design concepts into finished products.

Design Associate
MS Wave Studio | Kolkata, India | 02.2025 - Present

- Contributing to residential and commercial interior projects from concept development through execution.
- Developing spatial layouts, design concepts, mood boards, material palettes and FF&E selections.
- Preparing technical drawings and design documentation using AutoCAD and other design software.
- Coordinating with vendors and suppliers for material sourcing, quotations and procurement.
- Supporting site coordination and ensuring design intent is maintained through execution.
- Assisting with client presentations, design development and project coordination.

Laser Cutting - Technical Services Associate (Part-Time)
Manchester Metropolitan University | 05.2024 - 07.2024

- Supported fabrication and laser cutting processes for architectural and interior models.
- Managed basic stock control and material preparation to support workshop operations.
- Developed hands-on understanding of materials, tolerances, and fabrication methods.

Design Intern (2-months curriculum internship)
Rupande Shah & Associates | Kolkata, India | 11.2022 - 12.2022

- Supported residential and hospitality projects through schematic design, documentation, and execution phases.
- Assisted in preparing layout plans, elevations, and technical drawings in AutoCAD, along with project documentation and material selection.
